St. Bartholomew's Hospital

Founded A.D. 1123

WELLCOME
LIBRARY

P

12827

Bart's Hospital is a National Institution and almost everyone knows something about it, but comparatively few realise what an immense undertaking Bart's has become after 811 years of existence.

Bart's covers some 7 acres of ground and contains 710 beds in 30 wards, and 18 special departments in addition to the departments for General Medicine and Surgery. Through these wards nearly 11,000 In-Patients pass every year, patients who come from all parts of the country. The Out-Patient Department carries out nearly half a million treatments each year, and the total of over 40,000 X-Ray films taken in a year gives some idea of the magnitude of the work. To direct these services there is a visiting staff of 60 Physicians and Surgeons and Specialists, and a resident staff of twenty doctors. Working under their direction there is a staff of over 400 sisters and nurses. It is a great organisation which is rendering a great service to the country, and is therefore well deserving of the support of the whole country.

In 1930 the New Surgical Block of 250 beds was opened and now it has been decided to proceed at once with the long deferred construction of the New Medical Block of 250 beds at a cost of approximately £150,000, for which great step the support of the public is urgently needed.

The following gives some idea of the immense quantities required each year for the maintenance of a great Hospital like "Bart's," though space permits the inclusion of only a few items.

Milk	-	-	-	-	70,000 gallons	Cotton Wool	-	-	-	3 tons
Meat	-	-	-	-	93,600 lbs.	Gauze	-	-	-	300,000 yards
Fish	-	-	-	-	38,240 lbs.	Bandages	-	-	-	172,800
Eggs	-	-	-	-	230,000	Epsom Salts	-	-	-	1½ tons
Coke	-	-	-	-	4,770 tons	Carbolic Acid	-	-	-	2 tons
Electric Light and Power cost					£3,400	Bicarbonate of Soda	-	-	-	2 tons

Number of articles washed at Hospital Laundry, 2,009,332. At a cost of over £7,000.

Why?

Why?

Why?

Why do great concerns like Harrods, Hammetts, Selfridges and Woolworths use National Cash Registers?

Why?

There must be a reason why scores of such famous firms as well as hundreds of thousands of smaller retailers are using "National" systems.

It is because a "NATIONAL" SYSTEM ENSURES BIGGER PROFITS.

No retail business is immune from mistakes, forgetfulness and other sources of loss such as a "National" system prevents.

Why?

Why?

Can YOU afford to take risks that Hammetts or Woolworths cannot?

We shall be glad to give you full details of how a suitable "National" can help you increase your trade and profit. You incur no obligation by getting in touch with us.

ESSEX BUILDERS, Ltd., 1, Victoria Street, S.W.1.

WARNING TO RATS!

A rat in a trap, or a rat despatched with poison—the dead rat warns perhaps 100 other rats to *beware* and to keep away from such things.

The very speed and quickness of traps and poisons make these things only 1% efficient and 99% inefficient.

These are the views put forward by K. G. A. Petersen in his new book, *The Menace of the Death Rat* (Anchor Publishing Co., 4 Goldsmith Street, W.C.2. Price 2/6), obtainable through any bookseller.

"It is suspicion that keeps the rats alive. Kill suspicion, and you kill the rats." So says the author of *The Menace of the Death Rat*.

Readers of this advertisement are invited to apply to the Secretary of The British Rat Co., for particulars of their rat-control service—a service which owes its tremendous power and accuracy to the fact that it is based on Ratin, a scientific suspicion-allayer.

Unlike the quick-acting traps and poisons, Ratin does not have its effect on the rodents for 9 (nine) days. Consequently whole colonies can be fed on the substance and wiped out, not one of the victims knowing whence came their destroyer.

A small book (for executives and for those in authority) entitled "Checking the Rat Ravager and Mice," gives you particulars of this wonderful suspicion - fallayer and of the rodent-control service operated by The British Rat Co. Ltd.

Write immediately.

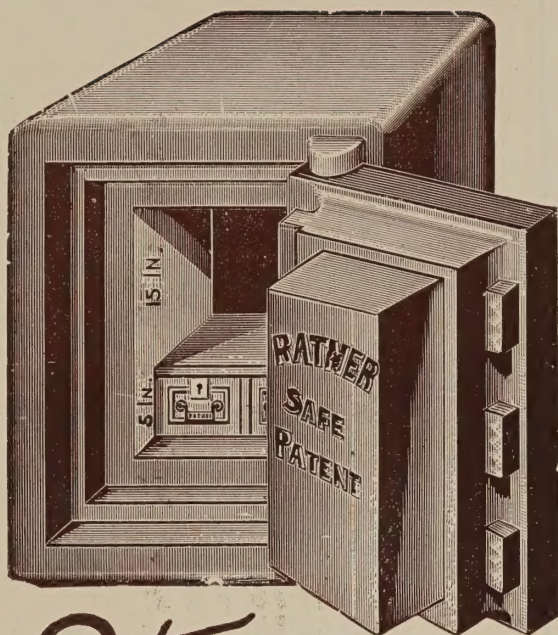

To: THE BRITISH RATIN CO. LTD.,
Kingsway Corner Buildings, Kingsway,
London, W.C.2.

Please send to me a copy of your booklet,
"CHECKING THE RAT RAVAGER AND
MICE."

Why great racing drivers now use Essolube Motor Oil

Great racing drivers know from experience that Essolube never breaks down, but lubricates perfectly at the fastest speeds they can drive their engines.

The same applies relatively to your car as to racing cars. Only faultless lubrication at all speeds and temperatures can protect your engine from the destructive effects of friction, burnt-out bearings, scored cylinders, the need for re-boring.
